

## Monthly Hangar Flying Safety Meeting

So many pilots that fly out of non-towered airports let their communication skills deteriorate to the point that they avoid taking advantage of the wide range of services available to them by ATC and Flight Service. At this informative briefing we will review the proper procedures used to fly in and out of Class D and C airspace as well as VFR Flight Following. We will also cover Enroute Flight Advisory Service (EFAS) better known as Flight Watch, the best source for getting weather and obtaining Pilot Report (PIREP) updates while in flight. Put the system to work for YOU! Free refreshments! Click on the link below and register today!

**Directions:** Meeting in the True Course Flight School hangar.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
